LEUCHTTURM1917

DETAILS MAKE ALL THE DIFFERENCE.

Founded in 1917, Leuchtturm can look back on over 90 years of experience in the production of high-quality stationery. The company was re-established in Hamburg from 1948. From the 1960s, Leuchtturm's international expansion continued apace, culminating in the company becoming the world's leading supplier of postage stamp and coin albums. Axel and Max Stürken took over management at the end of the 1990s as the fourth generation to head the traditional Hanseatic family-run company.

Experience and consistency are important requirements for quality. Quality gives ideas a solid foundation on which they can develop. We are convinced that small details can make a big difference.

DETAILS MAKE ALL THE DIFFERENCE.

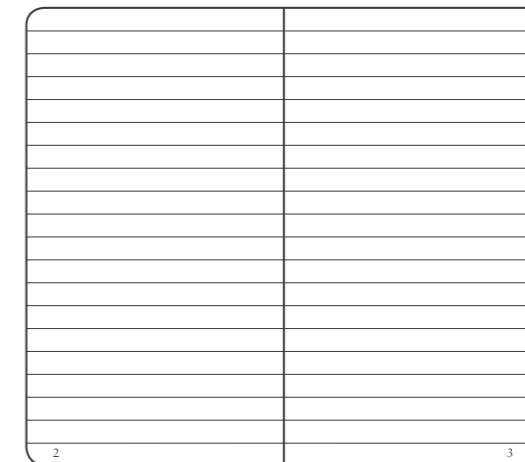

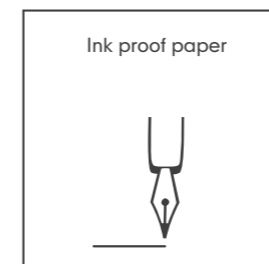

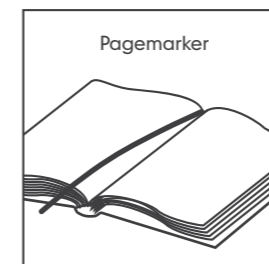

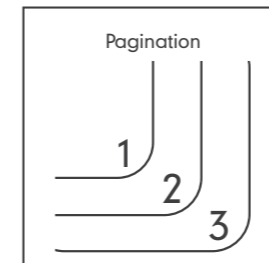

Make a record of your thoughts.
The moment they occur to you.
Wherever you are.
Cross them out, edit them, forget them, find them again, doodle around them, define them, revise them, make sketches, at your desk, on the train, up a mountain, on a beach, in the bath, in bed.
A good notebook is indispensable.

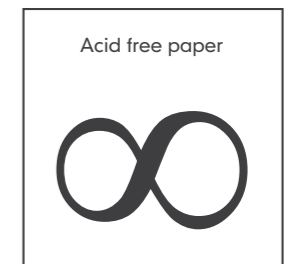

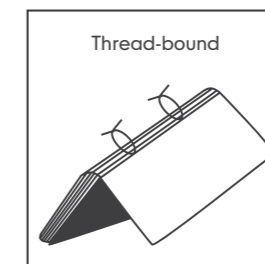

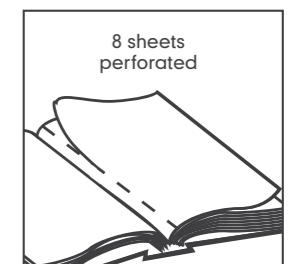

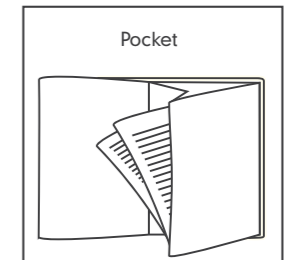

DETAILS

We've designed our notebook very carefully – down to the last detail. The pages are numbered and there is an empty contents page for you to fill in to make it easier for you to find your notes. There are several perforated pages at the back of every notebook – just in case you want to share a note with someone else. We also provide a set of sticky notes for you to label your notebook with.

RULING

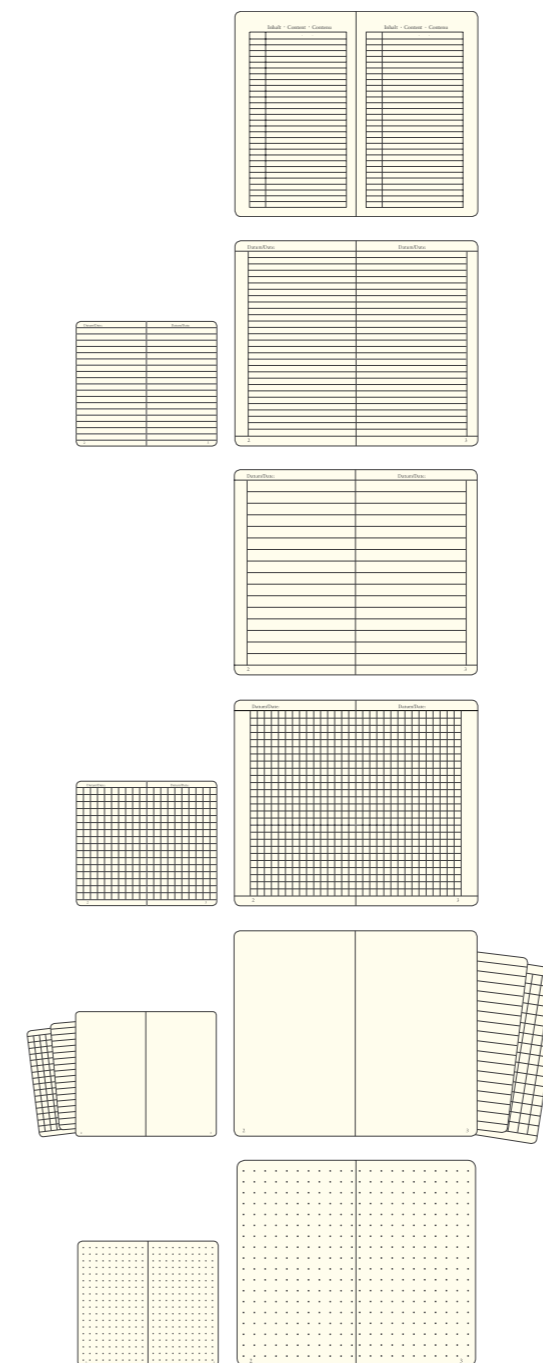

TABLE OF CONTENTS

All our notebooks have a three-page, tabular blank contents section at the front. All pages in the main section, whether lined, squared, dotted or blank, are consecutively numbered.

RULED

Lining with a spacing of 5 mm is available in all sizes. The more lightweight version of the large Master notebook, the 'Slim Master', likewise has five-millimetre spacing plus a margin for comments.

Our classic in Master size features generous spacing of 8.5 mm on 233 pages and of course you will also find a margin with space for comments.

SQUARED

Available in all sizes and versions: squared with precise 5 mm x 5 mm boxes. For calculations, tables and drawings. The notebooks in Master size also come with a margin.

PLAIN

Clear, white pages. No margin, no date. Simply features the page number in the bottom corner. Every plain notebook also includes a lined and squared guide sheet.

NEW: DOTTED

The essence of the three aforementioned rulings: Dots with 5 mm spacing provide guidelines for writing, assistance with creating tables and drawings and are so discrete that you could almost take the pages to be blank.

MASTER NOTEBOOK – THE CLASSIC

Apart from numerous details, the Master notebook stands out due to its size. In its A4 oversize format, it is large enough to accommodate loose sheets or photocopies between its pages or in its cover pocket without risk of damage. The Master notebook is our classic with 233 numbered pages and strong non-bleed paper.

THE NOTEBOOK BY LEUCHTTURM1917

The LEUCHTTURM1917 notebook is a classic writing book, which is supplemented by numerous details. The pages are numbered and, together with the contents page, they allow you to easily retrieve your notes and to set up references between individual notes. Borders allow room for comments and the last 32 pages are detachable, so that you can pass on notes at any time.

ALL OUR NOTEBOOKS HAVE:

- Contents page and numbered pages
- Space on the front cover and spine for labelling
- Some perforated detachable pages

TURN-BAR BINDERS

Turn-bar binders from LEUCHTTURM1917 combine the impression of a bound album with the flexibility of a ring binder. The patented sturdy turn-bar mechanism remains invisible even when the album is open. A practical bar keeps the sheets in place, but can be taken out when required. The perfectly matched range of accessories, including prime quality card pages, protective cover sheets and pockets, make the turn-bar binders from LIGHTHOUSE1917 the tried and tested archiving and presentation system for photos and much, much more.

THE ALBUM WITH THE "INVISIBLE" BINDING

TO OPEN THE BINDER

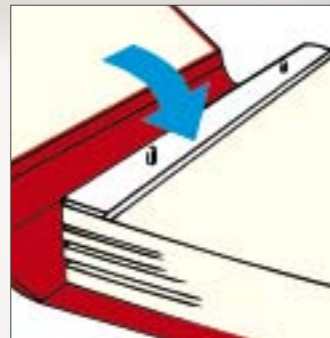

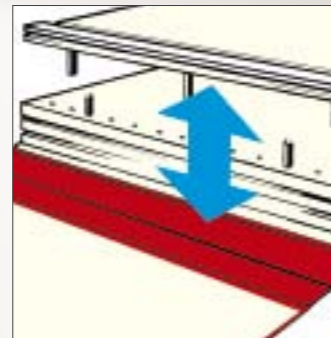

Turn the turn-bar, located at the top of the spine, to the right as far as possible and lift the front cover.

ARRANGE THE SHEETS AS REQUIRED

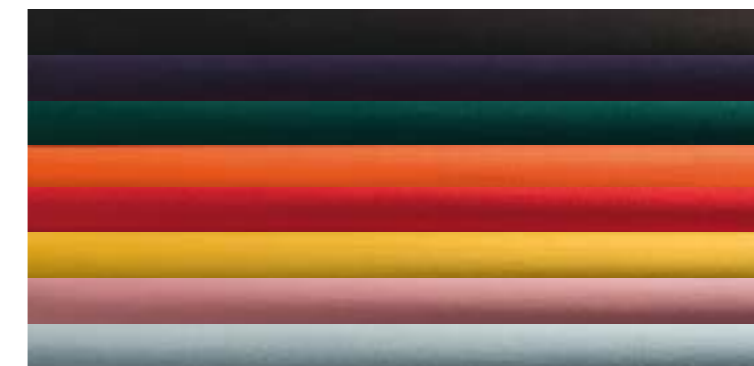

The bar secures the pages which have been temporarily removed. These can then be reinserted easily at a later stage.

TO CLOSE THE BINDER

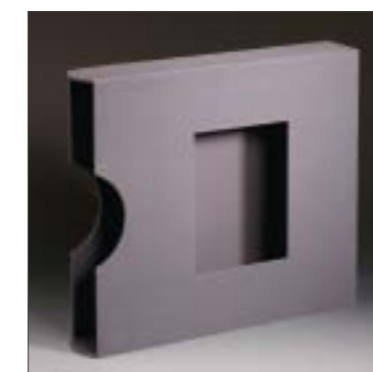

Lift up the front cover sufficiently to allow both of the metal rods to lock into the holes. Hold together the spine and turn the turn-bar left to the starting position (180°).
