

UNICUS

Design Prof. Matthias Rexforth

UNICUS | Model 1350 without armrests | Model 1355 with armrests

UNICUS – stacking chair with and without armrests by Prof. Matthias Rexforth which is remarkable for its plain design and the exceptional comfort of its ergonomically shaped plastic shell. Due to its simple shape and its basic elegance there are many opportunities of use. Its shapely base structure underlines the floating character of the flexible seat shell. Different colours allow for diverse variations in the design. The sophisticated shape of the shell which is reflected in its high class plastic makes the UNICUS unique. The different surface structures on its front and back allow for a symbiosis of comfortable seating and timeless elegance.

Frame

Frame made of round tube Ø 16 x 2 mm, with connecting frames made of flat steel 25 x 8 mm.

Frame surfaces

Standard version of the frame: chrome-plated, optionally powder-coated according to the BRUNE® collection.

Seat shell

Ergonomically shaped plastic shell made of polypropylene in a 2-component sandwich structure with high glass fibre reinforcement, which is particularly characterised by its high level of seating comfort and full recyclability.

Plastic colours

* The illustrations do not provide true representations of the colours from our range. Please contact us if you are interested in seeing original samples.

Upholstery

Fabric cover of your choice from BRUNE® fabric group 3, 4, 6, 7 or 8.

Seat / fully upholstered shell: 15 mm thick, SG/CH 35/50
