

PEOPLE COUNTING

FLIR BRICKSTREAM[®] EMPLOYEE FILTERING

The FLIR Brickstream Employee Filtering feature, with its ability to differentiate between customers and staff, provides accurate customer traffic and employee counts. This is ideal for environments where excellent customer service includes: 1) staff moving in and out of stores; 2) greeters welcoming customers; 3) the presence of security guards; and 4) and in luxury stores with lower traffic where each customer is significant.

FEATURES

EASILY CONCEALED STAFF IDENTIFICATION

Staff wear or carry a small, discrete electronic tag that can be easily concealed and not visible to customers.

AUTOMATIC COUNTS

Brickstream Employee Filtering automatically identifies and counts staff wearing tags. No manual intervention is required and there is no impact on daily staff operations.

MOST ACCURATE AND RELIABLE

Brickstream Employee Filtering achieves high accuracy rates with a patent pending combination of tag sensor and Bluetooth technology.

APPLICATIONS

Contact Tracing

Visitor Tracking

Wayfinding

Indoor Navigation

Staff Management
