Pneumatic Manipulator **POSIPLUS PP** with double cable

POSIPLUS PP, is a double cable manipulator with high load capacities, it is able to handle loads up to 200 kg and reaches working radii up to 4500 mm. The gripping tool is connected to the balancing group through two independent steel cables to ensure maximum safety. The particular double-arm structure with intermediate joint makes it easy to operate within the entire working area. Specific brakes mounted on the main joints guarantee control of drift movements.

POSIPLUS[®] - PP

Posiplus column mounted - PPC

Structural versions: column mounted on fixed base-plate, autostable base-plate of our supply properly dimensioned.

Posiplus

fixed overhead - PPF

running overhead- PPS

Air supply: dry and oil-free compressed air min. constant 0.7÷0.8 MPa
