WORKS FOR YOU.™

DELIVERING SUCCESS

READY FOR WORK WHERE YOU ARE

When your jobs are located in multiple locations, you need speed to move quickly and precision to make sure the job is completed correctly the first time. Terex truck cranes deliver both in a single solution sized to meet your requirements. Going from one job to another throughout the day is easy – Terex truck cranes can quickly reach highway speeds of more than 65 mph enabling you to take on more jobs.

- ▶ **Reliable, high-strength telescopic boom delivers full power under heavy load**
- ▶ **Frame and superstructure components are robust and stress-tested**
- ▶ **Many Terex® cranes are designed with interchangeable parts, enabling your dealer to more effectively service your crane if needed**
- ▶ **Structures are coated with rust-resistant paint**
- ▶ **Terex is committed to providing the uptime you demand with parts and service support**

Once at the jobsite, positioning and rigging is fast, and the engine and hydraulic system deliver the power to get the job done regardless of jobsite conditions or where you need to place the load. Add in the minimal downtime that Terex quality delivers, and you have outstanding value.

BUILT FOR THE WAY YOU WORK

FINANCIAL SERVICES DESIGNED WITH YOU IN MIND

Terex Financial Services™

Your daily business is lifting. Ours is to support you with the financial flexibility and security that the ever-dynamic crane business requires.

We know the needs that surround financial services in our industry inside and out – probably even better than the bank you do business with. This makes it possible for us to have the right solution for you so that you can stop worrying about financing and can go back to concentrating on your core business.

Because Terex Financial Services™ is a part of the Terex family, we understand your industry and Terex equipment better than anyone else. Whether you need to finance your next purchase or lease it, we will make it easy to get your equipment working for you.

PRIORITY ON SAFETY

PROTECTIVE MEASURES:

We offer supplemental systems that further reduce risk

Safety is paramount at Terex. It's everyone's business at our company to design, engineer and manufacture products so that your equipment operators – and everyone on a jobsite – can go to work feeling safe and secure.

Product Safety

Our multi-step approach to safety is integrated into everything we do at Terex. Right from the start, during the product development phase, concepts are scrutinized with a focus toward predicting and then reducing risk. Our focus is to engineer products with smart, practical features that make work safe and easier.

SAFETY COMMUNICATION

Terex Cranes offers safety training for all operators, and any safety warnings are clearly communicated on the equipment and in our manuals.
