

BSA 37

Automatic blister sealing machines

ILLIG developed the BSA 37 automatic blister sealing machine exclusively for non-food packaging. It provides high production reliability and the possibility to manufacture a variety of different packaging solutions with flexible modular equipment, and requires only a short retooling and setup time.

The ILLIG BSA 37 automatic blister sealing machine with its modular options and in combination with the quick-release tool change system is the ideal packaging system for a variety of non-food packaging articles. It has a maximum forming area of 309 x 358 mm. The production line, consisting of forming, sealing, and punching stations, in combination with the insert card feeder, expand the universal application possibilities of the machine, which can also be synchronized with end-of-line packing systems. The BSA 37 automatically forms and seals plastic blisters to a cardboard or plastic surface. Plastic blister-plastic blister applications, double-card blisters and 100% cardboard blisters are also all possible.

BENEFITS

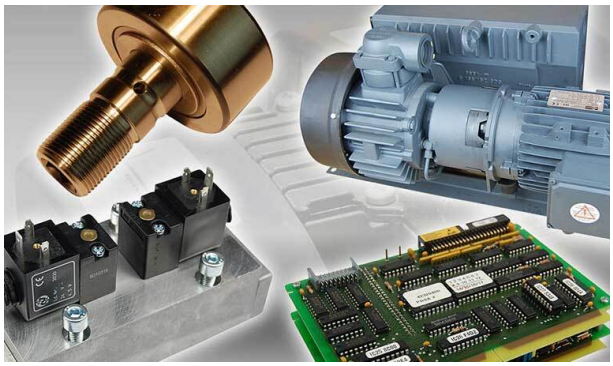

- PROCESS-CONTROLLED MACHINE
- QUICK-CHANGE-TOOLING
- LOW TOOL COSTS
- TFT HIGH-RESOLUTION SCREEN

TECHNICAL DATA

SERVICES

SPARE PARTS

With machine spare parts we offer our customers worldwide optimal support. Safe, reliable, superior parts for guaranteed quality.

SPARE PARTS

With tool spare parts we offer our customers worldwide optimal support. Safe, reliable, superior parts for guaranteed quality.

MONITORING

Our Monitoring products provide you a competitive advantage. Data analysis via our sercure remote access service, enables you reduced costs and time for trouble shooting and increase the availability of your ILLIG system.

SERVICES

PROCESS IMPROVEMENT

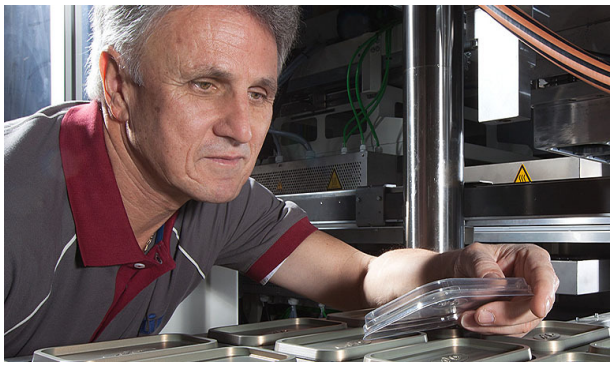

Our experts will help you with production or optimize the entire thermoform process to achieve more performance, better product quality and higher machine availability for your ILLIG system.

SERVICE AGREEMENTS

With service agreements we provide you support for your ILLIG system over the entire lifecycle.

TECHNICAL SERVICES

Technical Services offers our customers worldwide technical support.

SERVICES

TECHNICAL TRAINING

Master complexity - increase return. In accordance to this motto we educate the delegates to advanced line specialists.

ACCESSORIES

ILLIG accessories with ILLIG Quality. High-quality materials with a long lifespan, with targeted use, are a guarantee for optimal work results.
