# AWITE GAS ANALYSIS SYSTEMS

| GENERAL DATA                          |   | AWIFLEX   | AWIFLEX XL                 |  |  |
|---------------------------------------|---|---|----------------------------|--|--|
| Installation dimensions (WxHxD in mm) |   | 564x700x268   | 965x890x269                |  |  |
| Weight                                |   | ≤ 34 kg   | ≤ 72 kg                    |  |  |
| OPERATION CONDITIONS                  |   |   |                            |  |  |
| Ambient Conditions                    | 5 – 35 °C / 0 – 80 % relative humidity                  |   |                            |  |  |
| Installation height                   | ≤ 2000 m above NHN                                      |   |                            |  |  |
| Protection type                       | IP 54   |   |                            |  |  |
| Lengths of suction pipe               | ≤ 100 m   |   |                            |  |  |
| Max. gas inlet pressure               | 20 mbar rel. (optional 400 mbar or up to 16 bar)        |   |                            |  |  |
| Min. gas inlet pressure               | -20 mbar rel. (optional -350 mbar)                      |   |                            |  |  |
| Rel. gas humidity                     | ≤ 100 %   |   |                            |  |  |
| POWER SUPPLY                          |   |   |                            |  |  |
| Rated input voltage                   | 100 – 240 VAC   |   |                            |  |  |
| Input voltage range                   | 85 – 265 VAC (Derating < 90 VAC: 2,5 % / Kelvin)        |   |                            |  |  |
| Frequency range                       | 50 – 60 Hz  |   |                            |  |  |
| Power consumption <sup>1</sup>        | ≤ 80 W  | ≤ 160 W   |                            |  |  |
| Power supply unit                     | 24 VDC / 5 A  | 24 VDC / 10 A   |                            |  |  |
| Awiprotect                            | Over and low voltage protection, overcurrent protection |   |                            |  |  |
| SENSOR SYSTEM                         |   |   |                            |  |  |
| SENSOR <sup>2</sup>                   | MEASURING PRINCIPLE                                     | MEASURING RANGE   | REPEATABILITY <sup>3</sup> |  |  |
| Methane                               | infrared 2-beam sensor                                  | thermostated, pressure compensation   | 0 – 100 Vol.-%<br>± 0,1 %  |  |  |
| Carbon dioxide                        | infrared 2-beam sensor                                  | thermostated, pressure compensation   | 0 – 100 Vol.-%<br>± 0,1 %  |  |  |
| Carbon monoxide                       | infrared 2-beam sensor                                  | thermostated, pressure compensation   | 0 – 100 Vol.-%<br>± 0,8 %  |  |  |

| Hydrogen                              | thermal conductivity                                    | temp.- and pressure compensation  | 0 – 100 Vol.-%<br>± 0,8 %  |  |  |

<sup>1</sup> values might differ, see type plate of analysis system

<sup>2</sup> configurable and extendable as required

<sup>3</sup> determined at the calibration point, given in % from upper measuring range value

<sup>4</sup> with dilution and only in conjunction with auto-calibration

| PROCESS CONNECTION   |                                | SOFTWARE FEATURES   |   |
|--|--------------------------------|---|---|
| Hose screw connection, stainl. steel 4/6 mm  | standard                       | Display of measurement history  | graphic / tabular   |
| Pipe screw connection, stainl. steel 6 mm VA-pipe  | optional                       | Extensive data storage  | 4GB microSD card  |
| Hose screw connection, stainl. steel 1/8" / 1/4"   | optional                       | DATA INTERFACES   |   |
| Pipe screw connection, stainl. steel 1/4" VA-pipe  | optional                       | Group fault   | potential-free<br>1 x relay (Uout: max. 250V AC/DC @ 6A)  |
| NUMBER OF MEASURING POINTS   |                                | Alarm outputs (optional)  | potential-free<br>n x relay (Uout: max. 250V AC/DC @ 6A)  |
| AwiFLEX  | 1-4                            | Analogue outputs 4 – 20 mA (optional)   | analog output<br>feed-through terminal  |
| AwiFLEX XL   | 1-9                            | Ethernet (optional)   | Ethernet/IP – I/O Adapter (slave)<br>PROFINET – I/O Device (slave)<br>Modbus TCP Slave<br>ProcessView<br>AwiView<br>TCP Socket<br>VNC |
| External measuring point switch-over AwiSamplex for additional measuring points  |                                | RS232 / RS485 (optional)  | Modbus RTU slave<br>1 x M12 connector   |
| Connection for discharge of exhaust air into the open or re-feeding of measuring gas into process pipe (relative pressure < 20 mbar) |                                | Profibus DP slave (optional)  | 2 x M12 connector   |
| Connection for removal of condensate in provided condensate container  |                                | USB (optional)  | 1 x type A  |
| MAXIMUM NUMBER OF DAILY MEASUREMENTS   |                                |   |   |
| AwiFLEX  | 50, continuous                 | More interfaces and transfer protocols on request   |   |
| AwiFLEX XL   | 50, continuous                 | CERTIFICATION   |   |
| SAFETY MECHANISM   |                                |   |   |
| Water sensor   |                                | NRTL TÜV SÜD Mark (UL / CSA 61010-1)<br>Certificate No. U8 17 12 83160 002  |   |
| Pressure sensor  |                                | SIL 1 for O <sub>2</sub> measurement according IEC 61508-2 (optional)   |   |
| Internal monitoring of leakages (CH <sub>4</sub> ) by concentration measurement (interior) <sup>5</sup>                              |                                | OPTIONS   |   |
| Automatic detection of overloads and temporary switch-off of involved measuring channels to preserve the sensors                     |                                | Combi package AwiDESULF for microbiological desulfurization incl. compressor, control valves and controller output            |   |
| Temperature monitoring (interior)  |                                | FuzzyLogic control for controlling valves, fans etc.  |   |
| Gas warning sensor AwiWarn for interior of the device  | optional                       | Integration of external sensors (analogue and digital), e.g. temperature, pressure, gas amount measurement, relative humidity |   |
| AwiFLEX XL   | optional                       | Calculation of calorific value, energy flow, CH <sub>4</sub> - and humidity compensation etc                                  |   |
| GAS PROCESSING   |                                |   |   |
| Gas filter   |                                | Automatic calibration feature   |   |
| Gas precision pressure regulator   | optional                       | Remote access to gas analysis   |   |
| Condensate trap  |                                | Monitoring of measuring gas pump with switch mechanism to redundant pump  |   |
| Gas cooler AwiCool   |                                | Automatically known values for measuring ranges to increase accuracy  |   |
| Other pressure control systems   | optional                       | Control of gas analysis from high-level controls  |   |
| PLC  |                                |   |   |
| AwiCore elektronice module   | extendable                     |   |   |
| GAS TRANSMISSION   |                                |   |   |
| Encapsulated analytic valves   |                                |   |   |
| Durable membrane pump  |                                |   |   |
| DISPLAY AND OPERATION  |                                |   |   |
| Panel-PC   | 7" TFT touch panel<br>1024x600 |   |   |
