TIMBER

Design delphin design

TIMBER | Model 4240

TIMBER – contemporary, filigree design. With its clear, straight lines, the TIMBER table – made from pure wood – is characterized by its easy adaptability. The construction permits the use of just about any possible surface and material, while dimensions and table top shapes can also be varied freely. TIMBER tables are made exclusively from wood and reflect their natural origin. They are sustainable and have been designed with a view to conserving resources.
